

HYGIENE MONITORING SYSTEMS

Hygislide

It is used in various industries for detection of microbial contamination of surfaces or liquids.

- No need for special education and equipment,
- Semi quantitative counting of bacteria and yeasts,
- Special design,
- Easy to use,
- Fast and economic,
- Reliable.

Surcheck RODAC plates

They are used for fast and reliable detection of microbial contamination. Surcheck plates are recommended for sampling flat, impervious surfaces.

- Used for microbiologic monitoring of critical control points,
- Convenient with standard procedures,
- Quantitative results in 25 cm² area,
- Easy to use,
- Fast, economic and reliable.

Applications of Hygiene Monitoring Systems:

• Food - water :

- Meat/fish processing institutions
- Food fabrics
- Food processing institutions
- Bread and biscuit fabrics
- Drinking water controls
- Pool water controls
- Milk industry
- Beer and beverages industries
- Poultry integrations
- Food departments of supermarkets
- Feed industry
- Olive industry
- Restaurants

• Health:

- Drug industry
- Hospitals
- Consulting rooms
- Operating theatres
