Handmade Jewelry

Bosques andinos con características de vivos colores; los cuales tienen poderes sobrenaturales desde los tiempos de los incas.

Bosque Místico es una empresa nacional dedicada a la elaboración de bisutería artesanal fusionando productos naturales como semillas, tagua (vegetal ivory), coco, paja toquilla, piedras semi-preciosas, plata, cerámicas, entre otros.

Cada uno de los diseños muestra exclusividad única en el mercado.

Bosque Místico is a new image in jewelry designs, the work is carried out from natural resources as vegetal ivory (tagua), seeds, gem stone, piece of pottery, coconut, also silver. And this express the same natural beauty in the wearer.
